Re: WT Docket 11-65

Dear Chairman Genachowski,

I am writing to support the proposed merger between AT&T and T-Mobile USA.

Expanding the availability, speed and reliability of mobile broadband will improve our country's competitiveness, strengthen our economy, and create jobs. It will foster innovation from device makers, apps developers, customers and content creators that did not exist a few years ago.

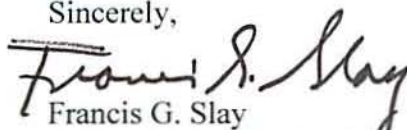

This merger will also improve service for tens of millions of customers by creating more capacity and improving network performance. We will get higher speeds and increased capabilities. That will provide the reliability and security to support important uses, including specialized education and health care solutions.

People are buying better and more sophisticated smart phones and tablets. They are using better and more sophisticated applications. This commission is going to have to make the right decisions to ensure there is enough capacity to handle all of the data. You should make this decision based on the results it will deliver. If you strangle capacity and innovation, you will be judged on that.

For those reasons, I urge you to approve the proposed merger between AT&T and T-Mobile.

Thank you in advance for your consideration.

Sincerely,

Francis G. Slay
Mayor, City of St. Louis
